## Moovly fully integrates into Google's GSuite

**VANCOUVER, CANADA -- (September 25, 2018) Moovly Media Inc. (TSX.V: MVY) (OTC: MVVYF) (FRANKFURT: OPV2) ("Moovly" or the "Company")** is pleased to announce that as a result of exceptional user demand, it has launched two new Google (**NASDAQ: GOOGL**) integrations: full GDrive integration and an advanced YouTube publishing integration.

Moovly has experienced strong growth in the number of Moovly videos being published to social media. YouTube publishing is especially strong with almost 1000 Moovly videos posted per day, a number which is growing quickly. Moovly's advanced integration into YouTube allows Moovly to add enhanced features to further enhance the user experience.

Integration with Google GSuite's GDrive, (with its 1 billion registered users), allows Moovly users to import their own content directly from GDrive into the Moovly Studio Editor, making the publishing of their video content to YouTube extremely intuitive and efficient.

Brendon Grunewald, Co-Founder and CEO of Moovly, stated: "Moovly is dedicated to responding quickly to user needs and providing the most advanced, easy to use video creation products available anywhere. The steady increase in Moovly clients making videos for YouTube and other social media made this enhanced integration an obvious strategic choice for us. GDrive integration saves our users time while allowing them to make use of their own creative assets. Moovly will continue to add partnerships and integrations to our platform as a way of better serving our loyal and growing customer base."

### **About Moovly:**

Moovly is the leading provider of creative cloud-based tools to tell marketing, communications and training stories using videos and presentations.

Moovly's advanced Studio Editor with over 200 million digital assets seamlessly integrated (via partnerships with Shutterstock & Storyblocks) is all you need to make engaging video content to promote, communicate or explain your product, service or message.

Moovly's API and Automator technology allow 3rd parties to automate parts or all of the content-creation process, including mass customization, personalized videos (video version of mail merge), automatic content creation or updating by connecting data sources.

With clients including users from >300 of the Fortune 500, small businesses, freelancers and Ivy league universities, Moovly is an intuitive, cost effective choice for DIY creation of engaging video-based content.

#### Reader Advisory

*This press release contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. The use of any of the words "expect", "anticipate", "continue", "estimate", "objective", "ongoing", "may", "will", "project", "should", "believe", "plans", "intends" and similar expressions are intended to identify forward-looking information or statements. More particularly and without limitation, this news release contains forward looking statements and information with respect to Moovly's future business plans and the expected benefits of its products. The forward-looking statements and information are based on certain key expectations and assumptions made by the Company. Although the Company believes that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward looking statements and information because the Company can give no assurance that they will prove to be correct.*

*By its nature, such forward-looking information is subject to various risks and uncertainties, which could cause the actual results and expectations to differ materially from the anticipated results or expectations expressed. These risks and uncertainties, include, but are not limited to, Moovly's inability to continue to commercialize its products or demand for its products decreases or disappears. Other risk factors are set forth in detail in the Company's Management Information Circular dated June 30, 2017 which is available for review under the Company's corporate profile at [www.sedar.com](http://www.sedar.com). Some other risks and factors that could cause the results to differ materially from those expressed in the forward-looking information also include, but are not limited to: general economic conditions in Canada, the United States and globally; industry conditions, unanticipated operating events; failure to obtain any necessary third party consents and approvals, if and when required; the availability of capital on acceptable terms; the need to obtain required approvals from regulatory authorities; stock market volatility; competition for, among other things, capital and skilled personnel; changes in tax laws; and the other factors. Readers are cautioned that this list of risk factors should not be construed as exhaustive.*

*The forward-looking information contained in this news release is expressly qualified by this cautionary statement. Readers are cautioned not to place undue reliance on this forward-looking information, which is given as of the date hereof, and to not use such forward-looking information for anything other than its intended purpose. The Company undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable law.*

*Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.*
